Relevant Modules: Business Finance, Data Structures & Algorithms, Artificial Intelligence & Data Mining

Sun Yat-sen University

Guangzhou, China | Dec 2024

Winter Exchange Programme (Economics)

PROFESSIONAL EXPERIENCE

Aldiracita Securities

Jakarta, Indonesia | Jun 2026 – Aug 2026

Investment Banking Summer Analyst

- Evaluated equity and debt funding for a listed transport group, comparing bond pricing across 3 maturities and 2 rating scenarios with bank loans; highlighted equity dilution risks and the trade-off between bond funding costs and financing diversification
- Benchmarked 5 bond and sukuk issuers for a technology-company financing pitch, comparing credit ratings, coupons, maturities and asset backing; distinguished operating peers from pricing references to assess indicative funding costs and tenor options
- Compiled bookbuilding recaps for a 10-firm underwriting syndicate and supported Excel-based calculations of management, underwriting and selling fees for rupiah (IDR) and US dollar bonds, accounting for full-commitment and best-effort allocations
- Authored internal transaction memoranda from initial analysis to final draft, synthesising issuer financials, capital structures and offering terms for associate and AVP review, including assignments with same-day deadlines

Maybank Securities

Jakarta, Indonesia | Dec 2025

Middle Market Intern

- Produced a counterparty credit report and Excel workbook for an IDR 100bn repurchase agreement (repo) with a new client in material-handling equipment rental and sales, supporting AVP review of a financing transaction that was subsequently accepted
- Identified equity market value as a key driver of the counterparty's high Altman Z-score; examined other components, DuPont ratios, liquidity, leverage and cash flow using Bloomberg data to assess creditworthiness beyond the headline score
- Introduced generative AI tools to support report drafting, financial comparables analysis and Excel/Python calculations, helping the middle-market team complete time-sensitive assignments more efficiently

Singtel – Nxera

Singapore, Singapore | Jun 2024 – Dec 2024

Energy & Sustainability Intern

- Assessed the financial viability of energy-efficiency initiatives at Singtel's Tuas data centre through cost-benefit and ROI analyses, working with engineering, procurement and finance teams to support capital expenditure decisions
- Analysed temperature and humidity data to identify potential operating-cost savings through improved climate control, reporting findings alongside sustainability and financial performance metrics to senior management

LEADERSHIP & ACHIEVEMENTS

PINTU (NTU Indonesian Students' Association) – Public Relations Director

Singapore, Singapore | Aug 2023 – Aug 2024

- Led a 10-member committee to deliver promotional campaigns that increased event attendance from 99 to 156 (+58%)

IMPACT 2.0 – 1st Place, STEI Mathematics, Physics & Informatics Competition

Bandung, Indonesia | Jul 2021

- Ranked 1st in an interdisciplinary mathematics, physics and informatics competition organised by Institut Teknologi Bandung (ITB)

ADDITIONAL SKILLS

Technical Skills

Microsoft Excel & PowerPoint, Python, C++, SQL, VBA, R. Working knowledge of Bloomberg Terminal. CFA Institute Associate member

Languages

Bahasa Indonesia (native), English (fluent), Mandarin Chinese (conversational)

EXTRA-CURRICULAR & INTERESTS

- Badminton: Played competitively for several years; captained the PINTU badminton team in Singapore (2023 – 2024)
- Volunteering: Provided IT support to Habitat for Humanity International's disaster and humanitarian relief initiatives for 5 months
